

SUBODH KUMAR

Senior AI/ML Engineer | IT Professional | Python & Machine Learning

PROFESSIONAL SUMMARY

AI/ML professional with 8 years of experience in software development, machine learning, data analytics, and AI-powered application development. Experienced in building end-to-end ML solutions using Python, scikit-learn, TensorFlow/PyTorch, NLP, computer vision, REST APIs, and cloud-ready deployments. Strong problem-solving skills with experience translating business requirements into scalable technical solutions.

CORE TECHNICAL SKILLS

Programming	Python, SQL, Java, JavaScript
AI / ML	Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI
Libraries	Scikit-learn, Pandas, NumPy, TensorFlow, PyTorch, Matplotlib
Web / APIs	Django, Flask, REST API, HTML, CSS, React basics
Data	Data Cleaning, Feature Engineering, EDA, Statistics, Model Evaluation
DevOps / Cloud	Git, Docker, CI/CD concepts, AWS
Databases	MySQL, PostgreSQL, SQLite, MongoDB

PROFESSIONAL EXPERIENCE

Senior AI/ML Engineer — IT & AI Solutions | 2022 – Present

- Designed and developed machine-learning solutions for classification, prediction, recommendation, and automation use cases.
- Built production-oriented Python pipelines for data preprocessing, feature engineering, model training, validation, and inference.
- Developed NLP solutions for resume analysis, text classification, skill extraction, and career-domain recommendation.
- Integrated trained ML models with Django/REST APIs and web applications.
- Worked with SQL databases and cloud/deployment workflows to support scalable applications.

AI/ML Engineer — Software & Data Applications | 2019 – 2022

- Developed predictive models using supervised and unsupervised learning techniques.
- Performed exploratory data analysis, feature selection, model comparison, and performance evaluation.
- Created dashboards, reports, and data-processing workflows using Python and SQL.
- Collaborated with software teams to integrate ML components into business applications.

Software Developer / Data Analyst | 2018 – 2019

- Developed and maintained Python-based applications and database-driven features.
- Worked on data cleaning, reporting, automation, and API integration.

SELECTED AI/ML PROJECTS

AI Resume Analysis & Career Prediction System — Built an NLP-based system using TF-IDF and machine learning to analyze resumes, extract skills, identify skill gaps, and predict suitable career domains.

Predictive Analytics Platform — Developed ML pipelines for data preprocessing, model training, evaluation, and prediction with Python and scikit-learn.

AI Web Applications — Integrated trained models with Django applications and REST-style interfaces for real-time predictions.

EDUCATION

Bachelor of Computer Applications (BCA) — Computer Applications / Information Technology

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Machine Learning & AI • Python for Data Science • Deep Learning • SQL & Data Analytics • Cloud & Deployment Fundamentals

ADDITIONAL INFORMATION

Location: Kolkata, West Bengal, India | Open to IT / AI-ML opportunities
