

SUBODH KUMAR

Python Developer | Data Scientist | AI/ML Enthusiast

Kolkata, West Bengal, India | BCA Student | Software & AI/ML Projects

PROFESSIONAL SUMMARY

BCA student and aspiring **Python Developer, Data Scientist, and AI/ML Engineer** with hands-on experience in **Python, Django, Machine Learning, Data Analysis, SQL, Pandas, NumPy, Scikit-learn, REST APIs** and database management. Experienced in developing AI/ML applications, preprocessing datasets, training classification models, evaluating model performance, and integrating trained machine learning models with Django web applications. Strong interest in Artificial Intelligence, Machine Learning, Data Science, Predictive Analytics, Natural Language Processing, and Backend Development.

TECHNICAL SKILLS

Programming	Python, Java, C, SQL, HTML, CSS, JavaScript
Data Science & ML	Machine Learning, Supervised Learning, Classification, Regression, KNN, Decision Tree, Linear Regression, Feature Engineering, Data Preprocessing, EDA, Model Evaluation
Python Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, Joblib
AI / NLP	Artificial Intelligence, Natural Language Processing, Resume Analysis, Text Classification, TF-IDF, Skill Extraction, Career Prediction
Web Development	Django, Django REST Framework, REST API, Bootstrap, HTML5, CSS3, JavaScript
Database	MySQL, SQLite, MongoDB, SQL Queries, CRUD, Database Management
Tools	Git, GitHub, VS Code, Postman, Jupyter Notebook, XAMPP

PROJECTS

CareerDecode – AI-Based Resume Analysis & Career Prediction System

Python | Django | Machine Learning | NLP | Scikit-learn | Pandas | TF-IDF

- Developed an AI-based resume analysis system using Python and Django.
- Built a machine learning pipeline for career domain prediction using TF-IDF text vectorization.
- Implemented skill extraction, skill-gap analysis, and career recommendation functionality.
- Integrated trained ML models into Django and added PDF/DOCX resume text extraction.
- Supported career domains including Python Developer, Data Scientist, AI/ML Engineer, Java Developer, Frontend Developer, Database Developer, DevOps Engineer, Business Analyst, and Software Tester.

Diabetes Risk Prediction System

Python | Machine Learning | Django | Scikit-learn | Pandas

- Developed an ML-based application for diabetes-risk prediction from input features.
- Performed preprocessing, feature scaling, model training, evaluation, and Joblib model serialization.
- Integrated the trained ML pipeline into a Django web application with prediction and result pages.

Iris Flower Classification System

Python | KNN | Machine Learning | Django | Scikit-learn

- Developed an Iris classification application using K-Nearest Neighbors (KNN).
- Performed preprocessing, model training, evaluation, and Joblib model persistence.
- Integrated ML prediction with a Django web interface.

House Price Prediction

Python | Linear Regression | Pandas | NumPy | Scikit-learn

- Developed a house-price prediction model using Linear Regression.
- Performed data preprocessing and feature preparation using Pandas and NumPy.
- Evaluated model prediction performance using machine-learning metrics.

EDUCATION

Bachelor of Computer Applications (BCA) — George Group of Colleges, affiliated with MAKAUT, West Bengal

Relevant Coursework: Artificial Intelligence, Machine Learning, Data Structures, DBMS, OOP, Python, Java, Web Development, Computer Networks, Operating Systems.

MACHINE LEARNING KNOWLEDGE

Data Collection • Data Cleaning • EDA • Feature Selection • Feature Scaling • Model Training • Model Testing • Hyperparameter Tuning • Model Evaluation • Classification • Regression • Predictive Analytics • NLP • Text Classification • Model Deployment

CAREER INTERESTS

Data Scientist • Python Developer • AI/ML Engineer • Machine Learning Engineer • Data Analyst • Django Developer • Backend Developer

STRENGTHS

Problem Solving • Analytical Thinking • Quick Learning • Technical Curiosity • Project-Based Learning • Team Collaboration • Positive Attitude

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
