

SUBODH KUMAR

Python / Django Developer • AI/ML Enthusiast

Kolkata, West Bengal, India | +91-XXXXXXXXXX | subodh@example.com

GitHub: github.com/subodh-kumar | LinkedIn: linkedin.com/in/subodh-kumar

PROFESSIONAL SUMMARY

BCA student and aspiring Python/Django Developer with hands-on experience building web applications, REST APIs and machine-learning based projects. Comfortable working with Python, Django, SQL, SQLite, Pandas, NumPy, scikit-learn, Git and modern web technologies. Interested in backend development, AI/ML integration and practical software solutions.

TECHNICAL SKILLS

Programming	Python, Java, C, C++
Web & Backend	Django, Flask, REST API, HTML, CSS, JavaScript
Database	SQL, SQLite, MySQL
AI / ML	Machine Learning, scikit-learn, Pandas, NumPy, TF-IDF, KNN, Classification
Tools	Git, GitHub, VS Code, Postman
Other	Data Structures, Algorithms, Problem Solving, OOP

PROJECTS

CareerDecode — AI-Based Resume Analysis & Career Prediction System

- Built a Django web application that accepts PDF/DOCX resumes and extracts resume text for analysis.
- Implemented TF-IDF based career classification and career recommendation using scikit-learn.
- Added automated skill extraction, skill-gap analysis, matching skills and career recommendations.
- Integrated an admin-managed team section and a professional resume-analysis interface.

Chronic Illness / Diabetes Risk Prediction — Django + Machine Learning

- Developed a Django-based prediction application using a trained machine-learning model.
- Used Pandas, NumPy and scikit-learn for preprocessing, scaling and model evaluation.
- Created user-friendly prediction and result pages for displaying model outputs.

House Price Prediction — Machine Learning

- Created a regression-based machine-learning model for house-price prediction.
- Performed dataset preprocessing, model training and evaluation using Python and scikit-learn.

EDUCATION

Bachelor of Computer Applications (BCA)

George Group of Colleges / MAKAUT | 2024 – Present

RELEVANT COURSEWORK

Object-Oriented Programming • Data Structures & Algorithms • Database Management Systems • Operating Systems • Machine Learning • Web Development

STRENGTHS

Problem Solving • Learning New Technologies • Team Collaboration • Project Development • Analytical Thinking

CAREER OBJECTIVE

To contribute as a Python/Django or AI/ML-focused developer while building reliable software products, strengthening backend engineering skills and applying machine learning to real-world problems.
